MONEY, STOCKS AND GRAIN

Light Business at New York, the Fluctuations Being Infrequent and Small.

At Indianapolis All Grains Were Firmer, and Wheat Advanced One Cent-Current Quotations on General Merchandise.

MONEY AND STOCKS.

Moderate Business at New York, with Slight

and Irregular Changes in Prices. At New York, yesterday, money on call was easy at 1 2@2 per cent., the last loan being made at 2 per cent., closing offered at 2 per cent.

Prime mercantile paper, 31/2 @5 per cent. Sterling exchange was quiet but steady at \$4.87 for sixty-day bills and \$4.881/2 for demand.

The total sales of stocks were 147,466 shares, including the following: Atchison, 6,910; Chicago Gas, 3,080; Delaware, Lackawanna & Western, 3,300; Hocking Valley, \$.200; Northern Pacific preferred, 7,020; New England, 5,035; Reading, 3,597; St.

Paul, 9,020; Western Union, 10,250. The stock market still showed a dimin-Ishing volume of business, while the interest in the transactions and the width of the fluctuations were reduced to a minitnum by the approaching half holiday and the waiting attitude of operators. There is no news of importance to affect the course of prices. The opening was made with very moderate transactions and at only slight changes. The list, as a whole, showed an advancing tendency immediately. The execution of stop orders in Sugar resulted in a decline of 112, but Hocking Valley rose 1 per cent., and Reader in the day, showed an equal gain Rock Island dropped 1 per cent. from its best figure, and Burlington followed close-ly. The close was quiet but heavy at the reaction. The final changes are irregular, but for fractions only, though declines of in New York Central and 4 each in Sugar and Rock Island have some signifi-

Railroad bonds were more active than for several days and while the changes, as a rule, were without special interest, a firm temper prevailed and most issues are slightly higher. The only feature was the animation and weakness in the Atchison incomes, which furnished \$294,000 out of a total of \$1,727,000 for the day. It closed only a small fraction lower, however.

Government bonds were dull and easier, and State bonds were entirely neglected. Closing quotations were: Four per cent. reg. 115¹₂ Louis. & Nash.... 74⁷₈

Sheet zinc, 7c. Copper bottoms, 24c. Planished copper, 28c. Solder, 15@16c. Berry-Boxing for Tree-Protectors.

Take material such as berry-bexes are made of and cut it nine by thirteen inches. Wrap it around the tree and secure it by simply twisting a small wire about it near the top and pressing the lower end a little below the surface of the soil. These protectors serve every purpose desired, keeping out borers, rabbits and mice, and protecting the young tree from the severe heat of the snn until the top has grown sufficiently to afford this protection. They will last two or three years, and can be quickly renewed, as they cost only \$3 per thousand at the factory, thus making them very economical. They are left on the trees summer and winter, and so far as I know have never damaged the tree, as some bave feared.

WHEAT BECOMING FIRMER

Fluctuations Were Narrow, but a Bullish Feeling Pervaded the Pit.

Pardridge Claims to Be Doing Simply a Scalping Business at Chicago-Corn Declines but Hog Products Advanced.

TRADING AT CHICAGO.

Several Big Pieces of Bull News Thrust on the Market.

CHICAGO, April 26.-The strength in wheat continued to-day, though there was little animation in the market. The other cereals were rather easier early, but gathered strength toward the close. Pork acted in sympathy with the grain markets to a considerable extent. The influences most potent in the wheat market were the weather reports from the West and Northwest. In some parts of the Northwest the mercury is said to be down to the freezing point, while sleet storms were said to be quite extensive through Kansas, Nebrasks and some parts of Missouri. The big decrease in the visible supply yesterday, the decrease of 1,328,000 bushels in the amount of wheat and flour on ocean passage reported to-day, and the decrease of nearly a million bushels in the English visible supply during the last week were all bullish factors. May started in at 814c, sold at 818c, eased off to 814c and was 81%c about noon. July opened at 81%c, advanced to 81%c and back to 81%c, With 81%c the ruling price at noon. There was little for sale except by Pardridge, though he was usually a buver on the breaks, and claims that he is doing a scalping business and is not short any very conwere inclined to firmness, and the late Liverpool cables were a trifle higher on the futures. With little wheat on sale and good covering by the short interest the firmness became decided, but without very marked advances. May closed at 814@

813se and July at 814c. Corn was unsettled and weak early, making a sharp decline, but with nearly all the loss subsequently recovered. May started at 41%c, or 4c below the closing price of yesterday, but Boyden and Logan soon began to sell, and there was a sharp break to 41c. While the total receipts were not as large as expected by some 35 cars, the inspection was better, as 24 cars graded contract. But there was active buying on the decline, Norton-Worthington taking the lead, and there was a sharp up turn, May selling back to 41%c, closing at

Oats were steady all day, and closed at about yesterday's last figures. Hog products were in better demand and higher. Receipts of live hogs at the yards were about 4,000 below the estimates. Prices were firm. Pork made a sharp advance of about 15c in the forenoon over yesterday's last prices, then receded slightly, but recovered the loss and closed at the outside figures of the day. Lard and ribs were steady and firm. Estimated receipts for to-morrow are, wheat, 75; corn. 140; oats, 170; hogs, 25,000.

Top-Dressing Mowing Lands. Germantown Telegra; h. Upon most farms there are some fields of

permanent mowing that are continued from year to year in grass. Because these give a fair return is no reason why they should be neglected, although if unfed and no aftermath is removed, they may not suffer at all by the continual cropping. If a very light top-dressing of well-pulverized @2.85 @2.00 ₹4.50 manure is occasionally applied, its effect upon succeeding crops is almost magical. An application of ashes also shows its influence in an increased growth and in The quality was fair. The market opened causing a luxuriant growth of clover where there was none before. More hay means active and higher, especially on heavy more manure, and more manure better

-THE-

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news. and to secure this it spares no pains o? expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

DAILY JOURNAL

- Was reduced to -

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

The Sunday Journal

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of

CHOICE READING MATTER

That satisfies the most exacting taste.

The same reasons that call for the im mediate extension of the the daily circulation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.

TERMS OF SUBSCRIPTION:
